Good afternoon Mr. Han

I hope you are doing well. I wanted to provide you with an update regarding my current work assignment and transportation situation.

I have been assigned to a new work location that is approximately 47.5 miles away from my residence. Because of the increased distance and travel time, I am concerned about my ability to consistently get to and from the assignment once my current rental transportation ends.

I would like to request continued transportation support from the Department of Rehabilitation while I am working at this new assignment. Since the location is significantly farther from my residence, I would greatly appreciate any assistance or options that may be available to help me maintain reliable transportation and continue working without interruption.

I also wanted to clarify the extension on my Enterprise rental vehicle. I was informed that the Department of Rehabilitation approved an extension through the 28th of this month, but Enterprise told me that the rental has been extended through the 4th of next month. Could you please confirm which date is correct and let me know if there is anything I need to do regarding the extension?

Thank you for your continued support and assistance. I truly appreciate your help in making sure transportation does not prevent me from successfully continuing my work assignment.

Sincerely,

Garrett Madden
